

A gift has been made by Crescent Oral Surgery in your honour to Covenant House Toronto, the largest agency in Canada serving youth who are homeless, trafficked or at risk.

During the holiday season, Covenant House will provide support to as many as 300 youth daily. Young people have access to 24-7 care and vital support including: housing and after-care services, health care and counselling, education, life skills and employment programs.

Generous donor support helps ensure that young people are not alone – they will have a place to stay and be surrounded by caring people who want to help make the season bright.
